

## Overview

Change is constant in this world and every change brings new challenges. Drug development in pharmaceutical / biotechnology / medical device industries being crucial on its own is influenced by these changes and challenges which in turn affects the time and costs involved along with a compromise on quality. Investments involved in handling these challenges also incur huge costs. One of these challenges is resourcing. Hence you now need a perfect partner for all your resourcing challenges where the partner is able to offer effective solutions for staffing and managing resources based on your specific needs. The dedicated and experienced V-Share clinical team will be able to out-source an individual or a team of professionals to assist you with a part of your project or the entire project, full-time or part-time, anywhere across the world including UK, Europe, Asia and Africa.

### Got a task/project and worried about headcount..... opt for V-Share

A key struggle faced by most organizations is spending too much time on small and routine tasks while conducting clinical trials. Compounding this problem is the cost and employee factor. V-Share helps pharmaceutical / medical device / Clinical Research Organizations to overcome such challenges in a time efficient and cost effective manner. We will be one among you and accomplish the tasks given to us. The tasks can range from one single activity to a combination of multiple tasks with flexible FTEs.

With V-Share you can hire for a **specific task** where we can act as your **in-house team**. Or we can identify the best candidate for your project needs and also provide line management solutions to ease out your commitments.

V-Share is the strategic resourcing department within ASSAY Clinical Research Limited which is a UK based Clinical Research Organization providing expertise in consulting and business solutions for pharmaceutical / biotechnology / medical device industries and other CROs for conducting their clinical trials.

## Services

### a) Choose an individual or a team:

With a wide range of experienced and skilled clinical research professionals to choose from, you will be able to hand pick an individual or team, based on your requirements and we will ensure that the results are delivered with high standards of quality.

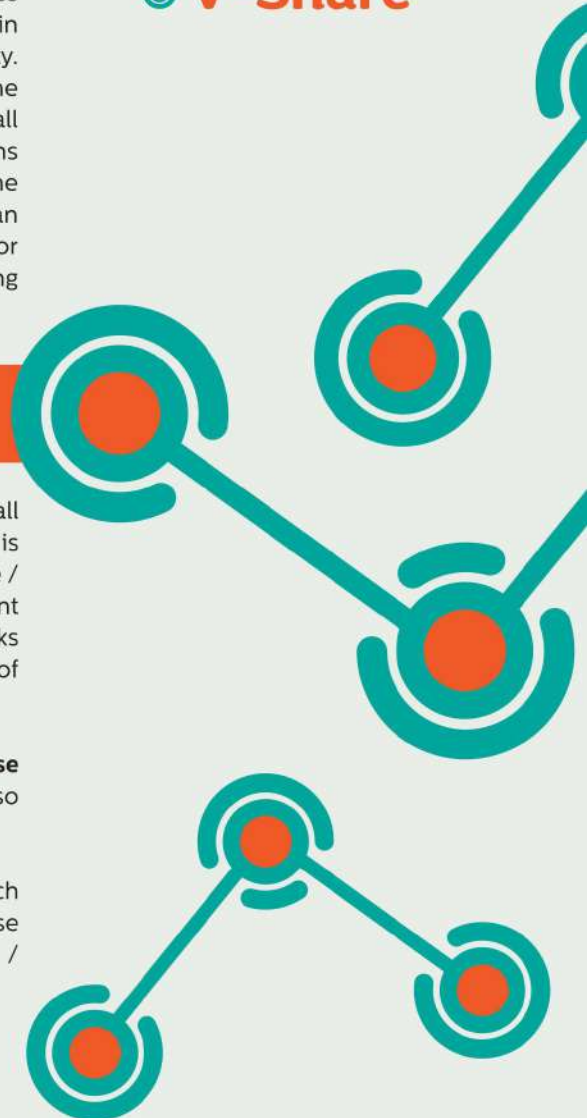

### b) Specialised and trained team:

Our professionals are trained, experienced and have the required expertise in conducting clinical trials. We are also experienced in a very wide range of therapeutic areas, which provides added advantage in understanding the project needs.

### c) Line management solutions

Our experienced professionals provide the best training for all your clinical operation needs like conducting site visits, performing source document verification, ICH-GCP. Training can be done both on-site and off-site, for client staff or site staff depending on your needs.

If you need a specialized team to assess the progress of your study or assess individual staff, we can provide you with our experts. People, performance and payroll management are OUR responsibility when you choose us.

## Our Aim

Our aim is to deliver the client requirements in an efficacious manner by reducing costs and maintaining high quality. Our services can be used for small sized projects to multinational projects in a combined manner or on an individual basis. We provide resourcing services of reliable staffing and Functional Service Provider (FSP) roles and train them to suit your specific project needs.

### **Advantages of associating with V-Share:**

#### **Guaranteed productivity and performance**

With our professional expertise we can provide you the best productivity and performance with high standards of quality. We provide weekly and monthly reports on work status so that you can track progress with zero compromise in consistency and quality.

#### **No long-term commitment**

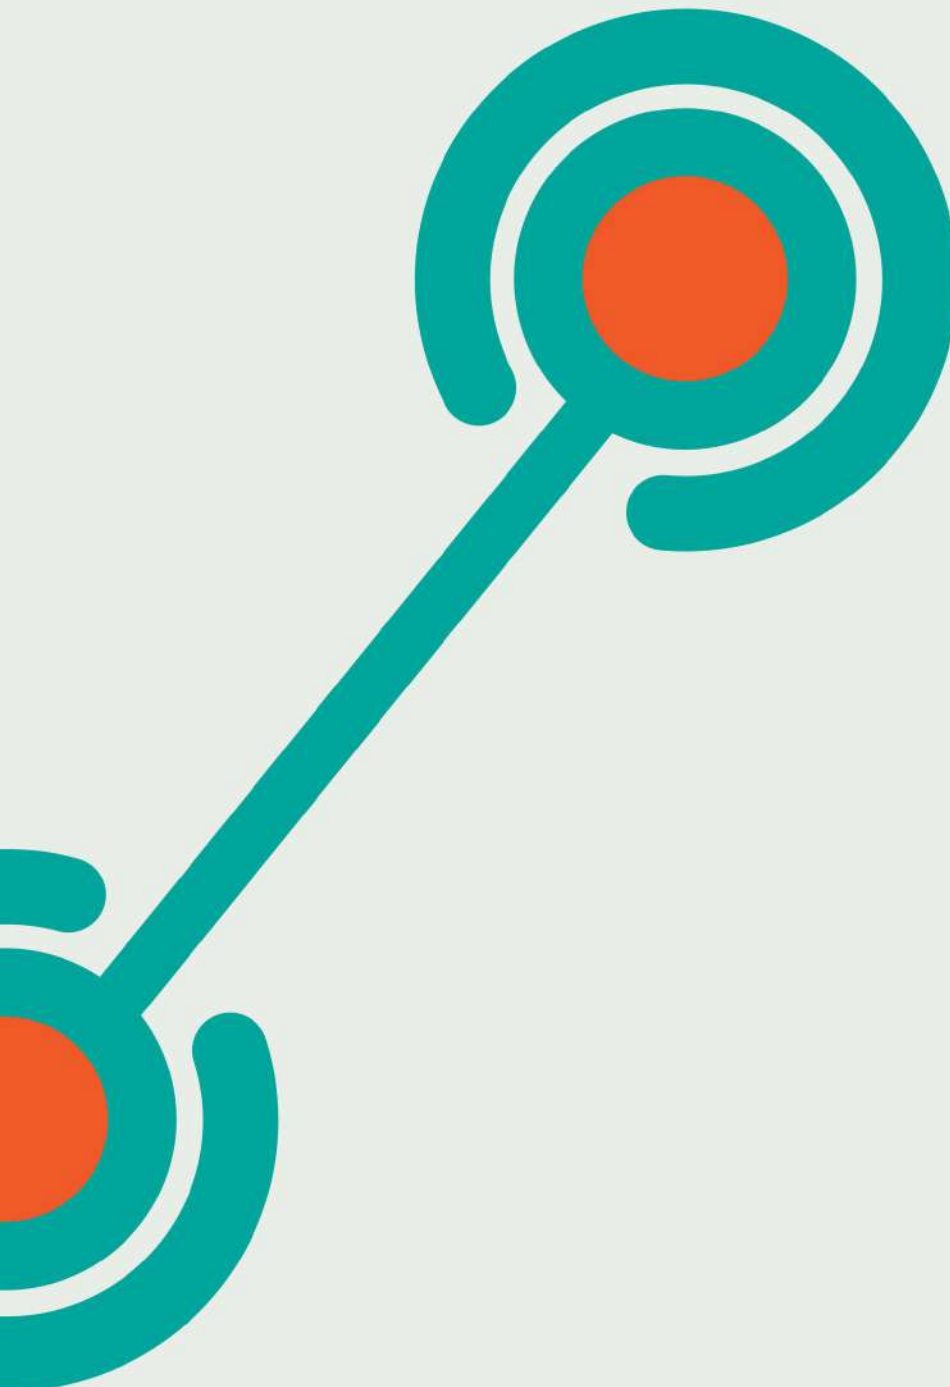

With our innovative sharing concept you can hire an employee/a team or outsource your project tailored to your specific needs rather than making a long term contract.

#### **Flexibility**

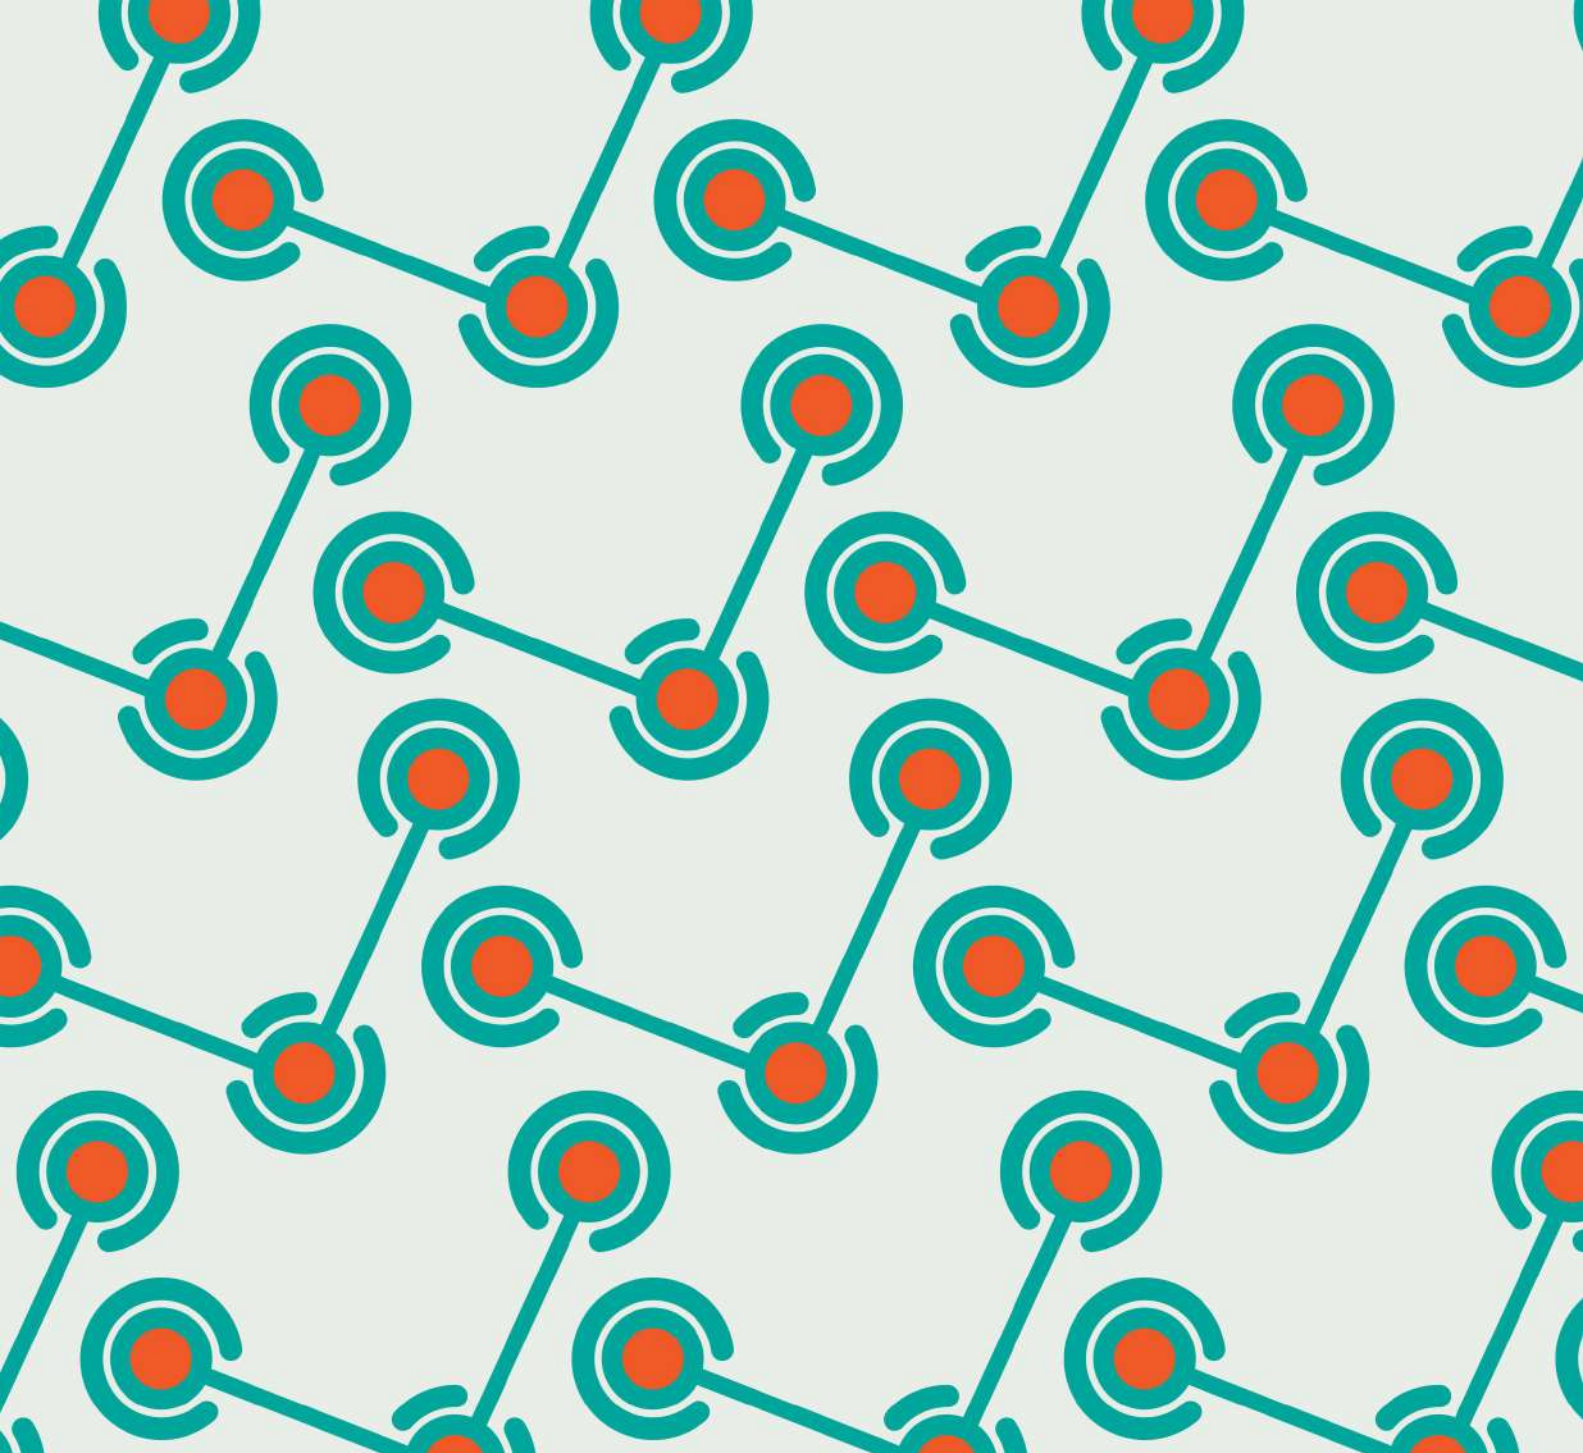

Our sharing concept offers flexibility and a complete pay-as-you-go model, where you can upgrade or downgrade your services anytime you like.

#### **Affordable prices**

Long term contracts and hiring for an entire project when the need is only for a particular task can incur a huge cost to the company. V-Share with its unique hiring model ensures that you get the best experienced team or individual at a very affordable cost.
